PROFILE

System architect with 18+ years of experience in banking and large enterprises. Designs highly available platforms, leads infrastructure migrations, and takes architecture from technical requirements through production delivery.

CORE SKILLS

Architecture: Business-critical systems, Active-Active, high availability, disaster recovery, data centers

Infrastructure: Linux, Windows Server, VMware, KVM, Hyper-V, OpenStack, storage

Traffic & integration: F5, GSLB, Nginx, REST APIs, Kafka, IBM MQ, Redis, PostgreSQL

Enterprise services: Active Directory, FreeIPA, Exchange, RuPost, CommuniGate Pro, Zabbix

Delivery: Architecture governance, technical design, migrations, vendor evaluation, project leadership

Automation: Python, PowerShell

EXPERIENCE

VTB Bank | Lead System Architect | Nov 2024 - Present

- Designed Active-Active infrastructure for Shanghai digital banking serving 100,000+ users; brought a second data center and quorum site into operation.
- Migrated 100+ servers, scaled Tomcat to four nodes, and implemented F5 GSLB with Anti-DDoS protection.
- Implemented external monitoring and alerting; validated disaster recovery against a 99.9% availability SLA.

Rubytech | System Architect | Mar 2024 - Oct 2024

- Designed enterprise email architectures and migration plans for Aeroflot and Gazprombank using RuPost and CommuniGate Pro.
- Developed S3 storage and directory architectures; coordinated technical proposals, solution reviews, engineers, and vendors.

Rosneft | IT Infrastructure Architect | Mar 2019 - Feb 2024

- Audited 800+ Active Directory domain controllers for directory consolidation and piloted replacement of core infrastructure services.
- Developed reusable infrastructure designs; supported FreeIPA and CommuniGate Pro migration projects, presented solutions to the architecture committee, and evaluated vendors and total cost of ownership.

SIBUR | IT Project Manager | Dec 2013 - Dec 2018

- Unified 27 enterprises and 20,000+ users on Active Directory and Exchange 2010; deployed centralized monitoring and integrated Oracle Identity Manager.
- Led project-office teams of 5-45 people and delivered budget savings exceeding RUB 300 million.

INCOM Real Estate | Head of Communications & Telecom | Sep 2010 - Oct 2013

- Led a team of 3-11, migrated 4,000+ mailboxes to Exchange 2010, and reduced telecom and internet costs by 40%.

Remedium Group: Lead System Administrator (Jul 2007 - May 2008). Improved availability of key services from 85% to 99.7%.

Optima Group: Engineer / Tier 2 Support Lead (Aug 2005 - Jun 2007). Increased support ticket processing speed by 50%.

EDUCATION & TRAINING

Bauman Moscow State Technical University | 2007

Higher education, Automation of Technological Processes and Production

CommuniGate Pro enterprise communications and RuPost RP-2001SE (2024); project management (2017).
